BATHROOM REMODELING

The bathroom can be much more than just a pit stop for privacy. It serves an important purpose. It's where we complete the majority of our daily task; from preparing for work to a relaxing bath after a long day. It's where we apply products to beautify ourselves and where we shed it all to reveal our natural selves. In more ways than one, the bathroom is our own private sanctuary where we spend more time that we often realize.

FLOORING / WOOD FLOORING

Though it often gets overlooked, flooring can be an important factor in bringing a room together.

In today's market, there are several different types of commercial flooring options that you can choose from.

VINYL COMPOSITE TILE (VCT)

VCT is one of the most affordable commercial flooring options, with a relatively low purchase price and a long lifespan.

LUXURY VINYL TILE (LVT)

You will be able to create a similar aesthetic to solid wood flooring, without the inherent weaknesses of real wood.

BROADLOOM CARPET

Is perceived as a more luxurious carpet option than modular tiles, thanks to its prevalence in upscale installations.

MODULAR CARPET TILES

Offers a range of benefits to an indoor environment. Including the best acoustin profile of all flooring types; thanks to their multi-layered construction.

POOLS & OUTDOORS

With the outdoor remodeling specialist at Division 9 Inc. upgrading your patio doesn't have to just be a dream. From a custom-made gazebo to swimming pools and hardscape design, we can take your backyard ideas and transform your outdoor living space from average to your own personal paradise.

Most outdoor design and living spaces include a grill, lawn, and a few outdoor toys for the children. Whether you have a small or large backyard, there are plenty of ideas that we can implement to completely change the look of a space. Some commonly requested outdoor remodeling ideas include:

Outdoor kitchens and bars:
Replace your stand-alone grill with a full outdoor kitchen design built of weatherproof stone and wood. Complete with a built-in grill and oven, refrigerator, pantry and bar counter where you can entertain your guest as you cook

Pool remodeling:
Whether you already have a pool or need pool construction, we can take it from standard to resort with landscape design and pool deck. Let us transform your ordinary backyard into luxurious oasis.

Patio makeover and pergola:
Our deck builders can turn an existing small, concrete patio into a large patio deck made of stone or wood. Pergolas, patio covers and gazebos can be built on top of a new or existing patio to provide shade and privacy.
